

Using PokerGrandmaster converter with HM3

1. Go to PokerGrandmaster General tab and select HM3 as a tracker.
2. Copy the path of hand history export folder.

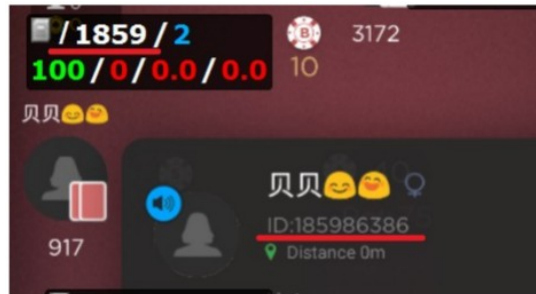

3. Go to HM3/Tools/Site settings/PokerStars and add PokerGrandmaster hand history export folder to Auto Import Folder.

4. Set “My Seat” to “Specific Seat” according to the following table:

Table size	My Seat
2max	Seat 2
3max	Seat 2
4max	Seat 2
5max	Seat 3
6max	Seat 3
7max	Seat 4
8max	Seat 4
9max	Seat 5
10max	Seat 5

5. Position the HUD for each player using player ID.

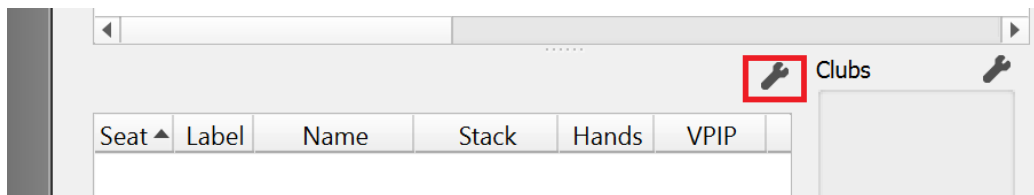

6. If you are seated on the table, the HUD will automatically rotate after you play one hand and HM3 imports it without errors.

Connecting PGM lobby to HM3 database

You should ignore following steps if you don't have PGM Lobby subscription.

1. Open "Players List Settings" by clicking on the wrench icon in PokerGrandmaster Lobby tab.

2. Click on "Enable", set "Type" to "HM3" and setup the path to your HM3 database.
